

Students have differentiated word lists each week. Please complete one of the homework activities at your leisure throughout the week. Please remember that our new spelling system aims to help students learn the letter patterns and apply them in new words, *not* memorization.

Weekly Spelling Activities

Option 1: Sort your words into groups that each have a common feature. **Write down the words sorted into their group** (i.e. animals, verbs, things at school, etc.) **on notebook paper.**

Option 2: Choose 8 words from your list that you need the most practice spelling. You can choose to **write those chosen words as pyramid words** (see below), **or use each word in a written sentence on notebook paper.**

Example of Pyramid Word:

s
sun
sun
sunl
sunli
sunlig
sunligh
sunlight

Please attach your spelling activity to the back of your homework packet and turn it in on Friday.
